

To the Commission:

This request, made pursuant to 5 USC Section 552 - entitled: "Freedom of Information Act," demands the Commission to produce all technical specifications of the proposed equipment to be used by 'Access Broadband over the Power Line Systems' organizations; technical specifications for interference mitigation; all interference data produced by experimentation; and all lobbying efforts documented or contained anywhere in any interviews, e-mail, or electronic data from any and all persons lobbying for the present rulemaking in ET Docket No. 04-37 and 03-104 and that disclosure by the Commission be made on the record in the aforementioned proceedings so that all commenting and interested parties may examine the same and the association between those and the activities of this Commission. As this is a singular request in connection with a disclosure on behalf of the public, I further request waiver or elimination of any costs associated with production of the aforementioned information as essential to ensuring public trust and confidence in the processes of the Commission. Undoubtedly, the Commission is readily in possession of this information, thus any de minimis costs borne by the Commission would not inconvenience it in complying with this Freedom of Information Act request.

Respectfully Submitted:

/s./ James E. Whedbee, M.Ed.
